

## ENVIRONMENTAL AND SUSTAINABILITY POLICY STATEMENT

Calor Teoranta in the Republic of Ireland (ROI) and Calor Gas Northern Ireland (NI) Ltd. (Calor) are a leading distributor of Liquefied Petroleum Gas (LPG), Bio LPG and Liquefied Natural Gas (LNG) and is committed to the protection and conservation of the natural environment, now and for the future. This commitment is recognised as intrinsic to the practical and sustainable success of Calor, but also in fulfilling the expectations of Calor stakeholders and the broader community.

Calor's policy is to:

- Conduct our activities in an environmentally responsible and competent manner to minimise the potential for pollution and environmental impact.
- Develop a sense of environmental responsibility and actively demonstrate this responsibility into the community we work in. We apply a pro-active, flexible, modern and practical approach, to continual technological and environmental improvement.
- Build a circular economy and adopt business strategies that strengthen our position delivering benefit to our stakeholders, through the provision of sustainable solutions.

To deliver on this commitment Calor will:

- Comply, as a minimum, with all applicable environmental legislation, regulations and guidelines related to the environmental aspects of its activities and services as stipulated by regulatory authorities and industry bodies.
- Provide sufficient financial and skilled human resources to ensure our activities are undertaken, meeting and where possible exceeding industry standards.
- Identify, manage and conserve natural capital, including biodiversity, where possible, within our scope of influence.
- Build and sustain alliances with government, regulators, policy makers and industry to advance clear and united environmental goals across the general community.
- As a responsible member of our community we will engage with our contractors and suppliers, the community and clients to achieve a high level of environmental performance and sustainable outcomes.
- Establish and periodically review identified operational environmental objectives and targets including continual monitoring, measuring and identifying ways to reduce and manage our carbon footprint.
- Regularly monitor, assess and review activities in relation to environmental performance to ensure that environmental commitments are valid and complete.

Every Calor employee and those working on our behalf must adhere to this Policy. The policy provides recognition that actively contributing to maintaining a healthy and sustainable environment is fundamental to the immediate and long-term interests of Calor and the broader community.
